

Classifying Rough, Hard, or Soft

Directions

1. On index cards write the words rough, hard, and soft.
2. Gather objects like: rocks, cotton balls, marbles, yarn, sand paper, emery board, pillow, and flower.
3. After you have talked about the three descriptions (rough, hard, and soft) your child will put the objects you have gathered into the categories.
4. Then your child will go on a scavenger hunt around the house looking for other objects that fit into these categories.
5. You and your child can come up with other categories and start the game all over again.
