

Make Books about Your Child

*Children love to be the main character and listen to books over and over that are about them.

*Take thicker paper and use double sided tape to put pictures into a book.

*Write on the paper or print off on your computer what happened in each picture and glue it to the page.

*Put a cover on the front with a title. Write you and your child's name as the authors and illustrators. Use a three ring punch hole to make holes in your book and bind with yarn or rings.

*Write about their routines, special events, what makes your child wonderful, adventures, or anything they want to write about.

*Kids will treasure the books forever.
