

## A Bleating Sheep

I want to draw a sheep that will bleat the day away.

I drew an oval that was the sheep's face.

Then, two circles so my sheep can see.

One nose will be made by making a "Y."

Then, I will draw a line to look like a smile.

By adding two long ovals, each on one side of my sheep's head, my sheep can now hear with its ears.

Next, a body will be added, simply draw a BIG circle all the way around the sheep's head.

Then, two small circles will complete my sheep's feet.

My sheep is complete and ready to bleat!
