

Bird Biscuit

Materials:

- Flat Wooden Heart (or any wooden shape)
- Peanut Butter
- Birdseed
- Drill
- Approximately 4 feet of 1/4 inch wide ribbon
- Bowl

Directions:

1. Drill one small hole in each side of the heart, the same distance from the top so that the heart is not lopsided.
2. Cover the wooden heart completely in peanut butter and then place the heart in a bowl of bird seed.
3. Cover the entire area of the heart with the birdseed making sure no spots are left anywhere on the heart.
4. Cut the ribbon so it goes through each hole with room to hang from the top.
5. Tie each end once through the hole in large knot to hold in place.
6. Hang bird biscuit in a tree or somewhere birds have easy access to it.
