

## Creative Lists

### Directions:

1. Come up with a creative "subject" list.
2. Each person has a piece of paper and pencil. They both write what would be on their list. Make the lists as original as possible.
3. Once the lists are done, each person reads their list.
4. Come up with a "final" list. You can take ideas from the first lists or even add details to the final list.
