

Check-Up for Statistics

***Run off The Teddy Bear Game. Have your child answer the questions that go with the Teddy Bear Game. Give your child other combinations of colored bears and ask them questions.**

0 My child understands the idea of statistics.

***Have your child design their own Teddy Bear Game. Ask them to come up with a game that would be fair statistically. Ask them to come up with a game that would be unfair to one color of bears. Have your child explain how they designed each game.**

0 My child understands the fairness of games and why some games might be unfair. My child understands the idea of statistics.
