

Well, I know a song.
It's really kind of funny.
It's all about coins
and learning to count
money.

Pennies, nickels, dimes
and quarters!
Pennies, nickels, dimes
and quarters!

Now a penny means one
(Hold up 1 finger!)

Dimes are worth ten
(Hold up 10 fingers!)

and a nickel means five.
(Hold up 5 fingers!)

and quarters twenty five.
(Flash... 10 twice & then 5!)

Pennies, nickels, dimes
and quarters!
