

Ordering Numbers

Before Playing:

1. Run off the Numbers 1 to 100.
2. Cut up all the numbers cards.

Game:

1. Mix up the Number Cards from 1 to 100 and divide the cards up equally between the two players.
2. The first person set out three cards and the other player has to put them in the correct order from lowest to highest number.
3. If the person gets it right they get to keep all of the cards but if they get it wrong the other player gets to keep the cards.
4. The person at the end of the game who has the most cards wins!

*You can also play this game from highest number to the lowest number.

*You can play by setting down four card and putting them in the correct order.

*Be creative and come up with your own Ordering Numbers Game.
