

Writing Numbers 0-100

Before Starting:

*Gather wipe off boards and markers or paper and markers.

Directions:

1. One person says a number (0-100) and the other person has to write the number.
2. Take turns asking and writing numbers.
3. Another game is to give clues to a number and the other person has to write it; be as creative with your clues as you can be. (Example: I have 37 buttons but I need 60 buttons. How many more buttons do I need?)
