

Check-Up Numbers 0-1,000

*On index cards write the numbers 257, 760, 924, 599, and 178. Ask your child to read each number.

O My child knows the numbers 0-1,000.

*Take the index cards from above (257, 760, 924, 599, and 178) and mix them up. Then have your child put them in order from the smallest number to the biggest number.

O My child can order numbers.

*With the "Place Value Fun" Game Board put out 357, 271, and 471.

O My child identified the value of each number.

*Ask your child to make the numbers 132, 573, and 320 using the "Place Value Fun" Game Board.

O My child understands the place value of numbers to the thousands.

*Ask your child to write the numbers 767, 345, and 881.

O My child can write the numbers to 1,000.
