

## Place Value Fun

## Before Playing:

1. Make a playing board on a poster board that is nice and big.

| Hundreds | Tens | Ones |
| :--- | :--- | :--- |
|  |  |  |

2. Run off counter sheets. You will need 9 ones, 9 tens, and 9 hundreds.

## Games:

1. One game is to put in quantities in the place value and the other person tells what number they have made.
2. Another game is to put quantities on the board and then take away and add to the quantity telling what number the other person has made.
