

Adding and Subtracting Two-Digit Numbers Regrouping Game

Before Playing:

1. Run off the two game boards.
2. One is for writing the number problems and the other is to figure out the problems visually.

Directions:

1. Write the problems out on the first game board.
2. Then use the game board with the blocks to visually figure out the problem.
3. Tell what numbers you have in the Hundreds, Tens and Ones places and that is your answer.
4. Come up with your own problems to answer also.
