

Number Line Subtraction to 10

Before Playing:

1. You will need a number line.
2. You will need a wipe off marker with an eraser.

Directions:

1. Put down the number line.
2. _____ - _____ = _____.
3. Now draw out the equation on the number line.
4. Another way to play is for someone to state a problem and the other person has to draw it out on the number line.

Example:

Nine children are coming to my birthday party. Three kids got sick and cannot come to the party. How many kids are still coming to the birthday party?
