

The Fact Family Game

Before Playing:

1. Cut up the number squares.

Directions:

1. The first player puts three numbers of a fact family on the first row.
2. Then the player has to make two addition equations and two subtraction equations that are true using **ONLY** the three numbers they started with.
3. If the player can complete the fact family board they get 5 points.
4. The first player to get 25 points wins!

1	2	3	4	5
6	7	8	9	10

The Fact Family Game

_____ + _____ = _____

_____ + _____ = _____

_____ - _____ = _____

_____ - _____ = _____
