

Flower Arranging by 2's

Before Playing:

1. Run off the game board Flower Arranging by 2's and the game pieces of flowers. Cut up the flower cards into rows of 2.
2. Run off the division cards and cut them up.

Directions:

1. Pick a division card. You have two vases so the flowers must be divided evenly between the two vases. So if you picked the division card $18 \div 2 =$ you have to take 18 flowers and put them into the two vases.
2. Then tell how many flowers are in each vase to answer the problem.
3. Arrange all ten problems correctly and answer the problems correctly, YOU WIN!
