

A Four Leaf Clover

I know a place where
you can find clovers.

But I am searching
for a very special one.

I want one that
will bring me luck.

It is the clover
that has four leaves.

It is the one
I want to find if you please.

So I searched and I searched
and I searched some more.

Till all at once...

I looked to see a four leaf clover,
just for me.
